

# KBT-Arrangemang

## Workshops med Andrew Christensen Integrative Behavior Couple Therapy (IBCT) Stockholm 26 & 27 mars 2009

KBT-arrangemang välkomnar **Andrew Christensen** till Stockholm 26-27 mars 2009 för två workshops om IBCT. Workshopen vänder sig till dig som har minst motsvarande steg-1 i KBT eller går sådan utbildning då grundläggande kunskaper i beteendeanalys krävs.

*" In this two day workshop I will provide the theoretical background, the assessment strategies, the treatment strategies, and the empirical support for Integrative Behavioral Couple Therapy (IBCT). The workshop will illustrate assessment and treatment techniques through videotaped examples from couples in treatment and provide role play experiences in implementing these techniques with couples that therapists in the audience are currently seeing in therapy.*

*During the first day of the workshop, I will provide the theoretical and empirical background for IBCT, review the assessment of couples with IBCT, describe the treatment strategies of IBCT, and describe the empirical support for IBCT. Treatment strategies will be illustrated with videotaped examples from couples in treatment. During the second day of the workshop, I will provide a series of role play experiences for the audience, which will be divided into groups of three participants (one participant will role play the therapist, the other two will role play a couple). These role play experiences will focus on couples that audience members are seeing in therapy. We will meet in the larger group to preview the role play exercises and to debrief the role play exercises.*

*We will break into the smaller groups of three to conduct the role play exercises. During the smaller group meetings, I will circulate from group to group providing assistance as needed.* "
